

HP ENGINEERING

HP ENGINEERING, INC.

Building systems that enhance learning experiences.

## WORLD-CLASS ENGINEERING SERVICES

HP Engineering understands that schools, educators, and students need facilities for various purposes. Educational buildings need creative problem solvers to meet the demands of energy-efficient and flexible spaces that support evolving teaching methods.

Our MEP and structural experience in educational facilities strengthens this understanding and the need to include open, flexible spaces for collaborative learning and learning evolution, plus highly-specialized areas for laboratories, theatre spaces, and exploratory learning. HP Engineering will help ensure the most optimal building systems for the educational environment of today and the future without worry.
